WEEKLY UNION.

Announcement

—TO—

SUBSCRIBERS

—TO THE—

Weekly Union.

With the first week in January, 1883 changes will be made in the form of the WEEKLY UNION, all tending to enhance its value to the subscriber, to enlarge its usefulness, increase its capacity to carry reading matter, and to elevate its character in all its departments.

—THE—

Weekly Union

—WILL BE—

ENLARGED

From seven columns to eight columns per page.

IT WILL THUS BE A SIXTY-FOUR INSTEAD OF A FIFTY-SIX COLUMN PAPER.

☞ It will be issued and mailed on Friday of each week, as heretofore. The semi-weekly part, which has heretofore gone to press on Tuesday of each week, will not regularly appear, but will be published in a four-page form from time to time, whenever the volume and importance of news and other matter justify. Whenever the semi-weekly form is issued the entire WEEKLY for that week will appear with seven columns to the page; when but one issue a week is deemed necessary, the eight-column and eight-page form will prevail.

With the enlargement of the Friday's issue to eight columns per page, an additional length to each column is secured, and

The Aggregate Enlargement

Will thus amount to

Sixteen Columns Per Week.

The enforced frequency of publication under the system that has heretofore prevailed, and by which two seven-column forms were issued each week, has prevented the giving of that editorial attention to the WEEKLY UNION that it should have had. Under the new arrangement, special and unsparing editorial and other supervision will be given to the paper to make it

COMPLETE

—IN—

All Its Parts!

The result will be that the WEEKLY UNION will carry to its readers more reading matter of value than ever before in its history, and it will be presented in a manner that will prove far more valuable to the reader. With this enlargement and readjustment of the form of the paper there will be a

REDUCTION

—IN THE—

RATE OF SUBSCRIPTION!

That its steadily-expanding circulation may be still further augmented. The subscription to the WEEKLY UNION will, therefore, on and after January 1, 1883, be

$2 PER ANNUM!

Instead of $2 50, as heretofore. At the reduced price it will be mailed, post-paid, to any point in the United States.

With these changes and the enlargement announced there will be retained

Every Department, and every feature that has distinguished the paper in the past.

As heretofore it will carry all the news published from this office; will present as before matters relating to public topics, critical reviews, full and improved market reports, agricultural matter, statistics of progress and development; scientific, fashion, mechanical, industrial, religious, home amusement and poetical departments; choice miscellany, tales and stories, responses to correspondents, mining news, news of the coast,

Latest Eastern

—AND—

COAST TELEGRAPHIC NEWS

Wheat, gold and silver quotations, summary of news, letters from regular correspondents at home and abroad, Congressional and Legislative reports, reviews and notices of the most recent publications, and all matters that go to make up a

FIRST-CLASS

Family, Business and News Journal.

In its new form we are confident that the WEEKLY UNION will enter upon a still wider career, and it will certainly prove to its readers a far more acceptable paper.

Our Reporter's Vacation Notes.

During his rambles this season, our Mr. M. has taken upon himself the task of satisfying our numerous readers that whatever goods are manufactured in our goodly city of Roger Williams are of as high a grade and as fine in quality as can be produced in any spot on the globe. Especially is this so when the skilled Pharmacist of many years' experience resolves to extract from the finest botanical specimens of the vegetable world the most potent cure for some special disease. In proof of his assertion that Providence affords the best, he relates an interview with an acquaintance, given him while sojourning temporarily at her residence. She says: "About a year ago I suffered severely from rheumatism in my limbs, and neuralgia in the head, which I endured two or three months with as much patience as possible, being under the treatment of an excellent doctor, and trying many kinds of medicines without any marked benefit. At last a medical friend advised me to try Hunt's Remedy, because he attributed my severe suffering to the bad condition of my kidneys, which were not performing their proper functions, and I commenced taking it, and in a few days the neuralgia had departed, my headache had entirely disappeared, the swelling in my limbs and joints had gone, and I have not had a touch of it since. More recently I was troubled with impurity of the blood, which showed itself in severe eruptions on my face. I again resorted to Hunt's Remedy, and after taking it a short time was completely cured of that complaint. Hunt's Remedy has proved very beneficial to me in attacks of sick headache, which it always alleviates, and I notice the improvement as soon as I take the Remedy. This Remedy has strengthening elements, for it has made me feel much stronger, and has been very beneficial to my general health. I most heartily recommend it to all sufferers like myself. MRS. L. G. TANNER, No. 136 Pearl street." We surely know that Mr. W. E. Clarke, the manufacturer of Hunt's Remedy, is a skilled Pharmacist of many years' experience, and a prominent member of our State Board of Pharmacy. —[Rep.

Great Praise.

Albert G. Mann, of Cottage Home, Ill., says: "I have been prostrated for three or more years with kidney disease. At times I was not able to put on my boots; my wife has often pulled them on for me. I was not so bad as that all the time, but I never knew what it was to be without pain in my back until I commenced using HUNT'S REMEDY. Since I began to take Hunt's Remedy I have been free from all pain, and take pleasure in saying that it is the best medicine I ever knew for kidney and liver diseases." m6-1yMWF&w1y

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN'S IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

The Santa Clara Murder—Startling Developments.

SAN JOSE, March 15th.—There are startling developments in the Lexington murder case. To-day, at Los Gatos, the inquest on the death of Renowden and McIntyre was resumed, and Majors, a saloon-keeper of the town, and possessed of considerable real estate, gave such testimony as induced the officers to regard him with suspicion. He was an intimate friend of Jewell, and twice at night went out with him riding toward Lexington. Martin Velasco testified that on Sunday night when Jewell came to Majors' saloon, that Majors closed up and put two sticks of wood in the stove. Majors said he went home, and that Jewell, who had his head cut, left, but Velasco did not see him leave the saloon. John Showers, who was captured at Gilroy, was brought to the County Jail to-day, and made a confession implicating Majors. He says Majors planned the robbery of Renowden, saying the old man had $20,000 buried by the house; that he furnished Jewell with a pistol; that Jewell and himself (Showers) went to Renowden's on Sunday evening, and were surprised to find McIntyre there; that they went in and had supper, saying they had lost the trail; that after supper Jewell called Renowden out of doors, ostensibly to learn where the trail was, and then presented two pistols at his head and threatened to kill him if he resisted; that Renowden sprang on him and grasped one pistol, breaking Jewell's finger as he did so; that Jewell then shot with a self-cocker, and at the same time Renowden struck him on the head, cutting the gash spoken of by Majors; that Jewell then shot him twice, and rushed to the assistance of Showers, who was struggling with McIntyre; that Jewell shot McIntyre, and then both he and Showers fled. They went to Majors' saloon, told him what occurred, and were furnished with money to leave. This evening, at 10 o'clock, Majors was brought in from Los Gatos, having been arrested by citizens. The inquest will be resumed here to-morrow at 9 A. M. at the Court-house. Showers will be called as a witness. Jewell is still at large. The excitement at Los Gatos is increasing, and the arrest of Majors was made to prevent lynching.

The Collins Murder Trial.

NEVADA, March 15th.—Evidence in the Collins case was concluded to-day, and argument will begin to-morrow. Collins was on the witness stand most of the day. With one or two exceptions, he denies every important fact proven against him. He swears that he was in Sacramento on the day the robbery was committed, but his evidence could not be substantiated. Two witnesses testified that a miner named Jack Brainerd suddenly disappeared from this vicinity the day before the murder, under circumstances which at the time led many to suspect him of being one of the implicated parties.

New Cases of Small-pox.

NEVADA, March 15th.—Two new cases of small-pox were developed to-day, but neither are of a malignant type. A daughter of Charles Richards has the disease, having contracted it from the family where it first appeared. L. O. Palmer, a pattern-maker, became exposed two or three days since, and he is down with the disease. Yellow flags have been put out at both places. The schools will probably be closed to-morrow.

Sensational Report Contradicted.

WILLOWS, March 15th.—A report of a sensational character appeared in a San Francisco paper to-day, stating that the drought in this county had so seriously affected the farmers and others that those owning stock had begun to dispose of them and depart for the mountains. Nothing could have been said so palpably at variance with the truth. It is true that the prospects are, at the present time, not as favorable as is desired, yet there is hope for a good half crop in this section of Colusa county. At least your reporter has failed, after persistent inquiries, to learn of any one selling stock with a view of migrating to the mountains on account of an anticipated drought. Drought or no drought, this end of Colusa county is abundantly able to take care of its stock and hold its own, as we were never in a better financial condition than now, and have unrestricted faith in our county.

Burglars Frustrated.

SMARTSVILLE, March 15th.—Last night robbers entered Jeffrey's blacksmith shop, took chisels and hammers, broke open the vestry room door of the Catholic church, cut an opening through the top of the safe, and endeavored to blow it open with powder, but failed. It is supposed that they were frightened away. There was no clue to the robbers.

Plea of Not Guilty.

AUBURN, March 15th.—In the Superior Court to-day Stephen Richards was arraigned upon information for the murder of Thomas Nichols, and entered a plea of not guilty. The case will be set for trial Tuesday.

Fire—St. Patrick's Day—The Board of Health.

SAN FRANCISCO, March 15th.—A fire late this afternoon on Brannan street destroyed about $8,000 worth of property.

The Irish-American citizens are making extensive preparations for celebrating St. Patrick's day. There will be the usual parade, oration and literary exercises. Numerous delegations from abroad are expected.

A meeting was held to-night by the Board of Health. The Secretary of the Board reported 399 deaths during the month past, as against 509 for the corresponding month of last year. Of these, 260 were males and 139 females. The resident physician at the small-pox hospital reported two cases of small-pox, twelve of leprosy and two of other diseases at the institution. Quarantine Officer Lawlor reported that fifty-five vessels arrived in port during the past month, all of which were in good sanitary condition.

IDAHO.

A Father's Vengeance.

BOISE CITY, March 15th.—A case of rape and retribution near Mountain Home, fifty miles east of here, occurred yesterday. William Gibson had a man whose name is unknown working for him three days. Gibson was out looking after cattle, and on his return learned that the man had outraged his eight-year-old daughter and fled. Gibson pursued and caught the man on the stage, took him therefrom, and taking him back along the road some distance, shot and killed him.

NEW MEXICO.

Shooting Affray—Immaculate Conception.

LAS VEGAS, March 15th.—Peter Mackel and Frank Kiser engaged in a shooting affray to-day at White Oaks, caused by the latter's intimacy with the former's daughter. Kiser received a mortal wound in the breast, and Mackel's hip is shattered beyond repair.

A young woman named Trujillo, living at Rincon del Tocolote, gave birth to a child, and immediately choked it to death. She tells a story of immaculate conception. The Grand Jury will investigate the matter.

HORSFORD'S ACID PHOSPHATE for overwork. Dr. G. W. Collins, Tipton, Ind., says: "I used it in nervous debility, brought on by over-work in warm weather, with good results."

Petaluma began the building of a cannery yesterday.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness and neuralgic ailments, yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

LYDIA E. PINKHAM'S Vegetable Compound strengthens the stomach and kidneys and aids digestion.

DYSPEPSIA, heart-burn, nausea, indigestion, etc., are always relieved by Brown's Iron Bitters.

A Chicago paper says the English sparrow is a street-cleaner. While he is in the cleaning mood, it would be well for the English sparrow to also clean the house gutters and cornices.

Startling developments were brought out at the inquest yesterday in regard to the double murder in Santa Clara county.

BRIDGING THE GAP.

One bill passed by the Legislature deserves special commendation. It was introduced by Mr. Caminetti, and was approved by the Governor March 9th. It meets with the approval of all thoughtful educators. It provides that all schools, unless otherwise provided by law, shall be divided into primary and grammar grades, and a course of study be adopted in the latter that shal enable students to prepare themselves to enter the scientific department of the State University. The course shall be divided into four grades—one year to each grade—and be known as the grammar school course. It is to be taught in school districts that shall elect to establish it, after notice given to electors. As the law already permits several contiguous school districts to unite for the establishment of schools, it will be seen that they can form a union for the joint maintenance of this new grammar grade, to bridge the gap between the common schools and the University. Nearly all the country districts receive or raise more money than is sufficient to maintain primary schools, but not enough to support in each district a preparatory grammar school. But it will be very easy for four or five districts to unite for the establishment of such a school. By these means the most serious fault in our school system will be remedied. Of course the new law does not apply to cities or where high schools are supported.

In the recent criticisms and press disputes upon the works of Mr. H. H. Bancroft, and the assaults upon his methods, it is made more and more evident that in the literary criticism of this day there is wanting that judicial spirit so necessary to an impartial judgment. We are led to believe that the habit of fault-finding is growing among literary men of the press. The newspaper critics too often attempt, by the sharpness of their blades, to atone for the lack of discrimination with which their blows are delivered. There can be no competent judgment without competent examination. The competent examiner of a work must be more than a mere fault-finder. What he is to seek for is the good as well as the bad in the work. If the latter alone be his object his "review" cannot be instructive, and never impartial. "Conscience," said an eminent scholar, "is a vital factor in criticism." Criticism should never descend either to a mere defense nor a purposeful attack, for it is one of the highest forms of judicial determination. In Mr. Bancroft's case many of his critics seem to have left the results of his work out of sight, in considering the methods employed by which he obtained his facts and put his work to press. These should have little value in estimating pages at their true worth. What is true of criticism of his books is to be noticed in very much of the criticism of the newspapers of the day.

From the first week of the legislative session to the last day the Record-Union called attention to the necessity for action on the forestry question. The Legislature admitted the force of the arguments presented, and appointed a commission, with jurisdiction limited to the Tahoe section, and one Commissioner for the whole forest region, but it proved impossible to procure an appropriation of money to enable Professor Hanks to go in person into the wooded slopes. Now that the session has closed, more than half of the San Francisco press awakens to the importance of the subject and in long leaders call for action, one paper alone holding that no damage is resulting from denudation of our hills. The truth is the majority of the San Francisco papers have been so color blind on the railroad and water questions that they could see nothing else during the session.

It would scarcely seem necessary to repeat that an appropriation for a building does not contemplate the furnishing of it; that an order to construct a house does not carry with it the right to put in a furnace. We have no objection to machinery being put into the new Pavilion, but do entertain the belief that what the Legislature meant, what the people who voted intended, and what the true interpretation of the law conveys, is a building worth $30,000 when erected, painted, and ready for furnishing and occupancy. The floor—platforms and terraced floors are parts of the building, but engines and machinery are not parts. Put up the building, and trust to good management and success to pay for an engine and shafting; but do not take the risk of injunctions, moved by enemies, to stop the payment of the State's share.

A PRACTICAL VIEW.

W. K. Ackerman recently read before the Chicago Historical Society a lengthy, exhaustive and deeply interesting paper on the history of railroad building in the United States. As a historical document it is a work worthy a very prominent place in the archives of the Chicago Association. The paper is too extended to justify the attempt to give an outline of its features, but on some topics Mr. Ackerman, whose experience as a railroad builder and manager qualifies him to give an opinion, speaks with such positiveness and conciseness as to warrant special reference. He shows that the grant and sale of railroad lands brought to settlement in Illinois on average farms of eighty acres no less than 30,000 heads of families, representing 150,000 souls. The rapid settlement of the railroad lands stimulated the sale of Government tracts which for years had been in the market but remained unsold, though for a considerable time they could have been obtained with land warrants at about one-half the Government price. After the location of the Illinois Central Railroad a large portion of them were immediately sold for from $2 50 to $5 an acre, and the line of the road began to fill up with hardy and enterprising settlers, enabling the Government to close its land offices. Here then we learn of compensation to the State and to the Government, that the demagogue who constantly prates about the gifts to railroads studiously ignores. In another place he proves that from 1851, the period from which dates the active construction of railways in Illinois, the assessed value of real estate in that commonwealth amounted $119,868,336. In 1882, by steady growth, it reached $809,995,795. In 1850 the State had 76,208 cultivated farms; in 1880 the number was 255,741. From 1835 to 1869 the State granted 413 charters, and between 1870 and 1882 376 companies filed articles of incorporation. In 1851 but one railroad entered Chicago, and up to 1852 but 95 miles of track lay in the State. By the close of 1855 there were 2,410 miles. Six of the leading lines entering Chicago operated in 1869 but 4,681 miles; but up 1882 their mileage increased to 13,130 miles. Chicago now ranks third among cities in point of manufactures, and as the world knows, her transportation facilities, aiding her natural advantages, have been the great elements in her advancement. He gives a history of all legislation concerning railways and the efforts made to fix rates by law. Illinois was gradually driven by demagogy to a policy of almost oppressive restriction, from one of encouragement and liberality, until capital taking alarm, the panic of 1873 was precipitated and vast injury done to material interests. In Wisconsin the people became satisfied that such a policy was mischievous, and repealed their "cinch" laws, and Iowa so far modified hers that the railroads and the Commissioners are enabled to work in harmony. Mr. Ackerman believes that railroads have nothing to fear of Commissions properly constituted, and exercising authority judiciously. Such a Commission can be a great aid both to shipper and carrier, but the ability to exercise such an influence depends upon the character of the men selected, who should be of broad and liberal views, free from any prejudice, without fear, without reproach, and carefully chosen on account of capacity, integrity, and fitness for the position—not as a political reward. The New York law now requires that at least one of the Commissioners shall be "experienced in railroad business." He holds that the shippers to-day regulate the rates of transportation, not the railroad companies. In a closing sentence he declares that the rule that special rates must be given, when the commodity to be forwarded will not bear tariff rates, is one that is approved by the judgment of every business man, and that the attempt to regulate by an inflexible law, a kind of business the chief difficulty in the management of which lies in its flexible nature, always has, and always will, prove a failure.

RUSSIA.

The dispatches have been diligently informing us of the greatly improved condition of affairs in Russia. We are not prepared to accept the statements. Careful examination of European journals does not confirm the news. That Nihilism has been suppressed is true in one sense, but it is not true that it has lost any of its vigor. As we understand it, it has simply taken a new and temporary form. Less virulent than before, it is more powerful in its abandonment of dynamite methods. It is taking shape as a political party which demands radical changes in a form of government, and seeks them in political rather than in actual revolution, but holds to the latter as a possibility constantly to be kept in view. That the Czar may walk abroad with fewer guards, feels free to attend public entertainments and to fix the month—not the day—for his coronation, proves only the tolerance of the Nihilists, among whom wiser councils are prevailing. But that there is an improved state of affairs remains to be seen; rather it is a change of tactics which, when the demand for a constitutional government is refused, will result in a more violent outburst than Russia has yet witnessed, for the Nihilists are gaining recruits before unapproachable, and are stirring the people against the Czar deeper than ever.

HOPE FOR THE WORLD.

There is no longer any question as to the progress of the world. That the generation is better than it has been credited cannot be doubted. Governor Ben Butler, who has been popularly supposed to be a pessimist, rises at a banquet and declares that the world is growing better; that things are all they seem; that men are wiser, more virtuous—in short, that men and women of this day stand on a higher moral plane than their predecessors. If this is not enough to convince, the fact may be recalled that a San Francisco Supervisor stood in his place Monday night and revealed an attempt to bribe him, and the personified virtue of the Board, Mr. Strother, exclaimed, "God bless the honest Supervisor from the Second." That in response to this invocation the showers of divine blessing will descend like gentle dews upon the member, who will doubt?

COMMUNISTIC FEELING.

The San Francisco *Commercial Herald*, which is not given to hasty words, says regarding this State, that the communistic feeling has been stronger in our community than in any other section of the Union, and it ought not to take a prophetic vision to see what it has already accomplished nor what it may do in the future. It believes that instead of keeping pace with other sections, we have been lagging behind, and we can attribute it to no other cause than an ungenerous disposition towards those whose aid is essential to the prosecution of enterprises that in other sections are fostered to the fullest extent possible.

GENERAL NEWS.

Two Ladies Burned to Death—Rhode Island Republican State Convention—Suicide in a Texas Jail—Salmi Morse and His "Passion"—The Diamond Mine Disaster—Strange Disease Among Chinamen—The Oxford-Cambridge Boat Race—Affairs in Ireland—The Situation in France—Gortschakoff's Funeral—Etc.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

DOMESTIC.

Salmi Morse and "The Passion."

New York, March 15th.—"You ask what I am going to do, now that I have secured a judgment in my favor?" said Salmi Morse to a reporter. "I scarcely know what to reply, for I have been so thoroughly misunderstood. I can say this, however, that I am going to produce 'The Passion.' As for a license, I do not wish one, for I do not wish to be degraded by a license. I have not built a theater. The building is my church. I have not written a play, but the service. When I least dreamed of it a notice was served on me to take out a license. Had I been a showman I would have obtained the license before I perfected my arrangements. They say I desire to make a vast deal of money out of this. Now my hall is 200 feet long, and I have taken 130 feet off of it for my stage. Do showmen do so? Would not a showman make an auditorium as large as possible? I have 500 people engaged, exclusive of the principals, and I have got an orchestra. My expenses will foot up $1,000 a night. Where does the large fortune come in? I shall keep out of the clutches of the law in future, but I do not need a license, and I shall produce 'The Passion.'"

Death of a California Pioneer.

New York, March 15th.—Hon. Jeremiah Sherwood, who arrived in California in 1847, Lieutenant in Company T, Stevenson's Regiment, afterward clerk for Samuel Brannan, at his store at Sutter's Fort, when the first exchanges of gold dust for merchandise were made, died at his residence here last night, of pneumonia, aged 60 years. He was a member of the firm of A. G. Newman & Co., and formerly a Representative in the State Legislature from Westchester county. The funeral will be attended by the California Pioneers here in a body. He leaves a wife and two daughters.

Nothing But Idle Talk.

Omaha, March 15th.—Senator Fair, of Nevada, who, since leaving Chicago, has been visiting in Iowa, arrived in Omaha this morning. He was asked by an Associated Press agent about the truth of the dispatch from Carson, that he would resign and Governor Adams succeed him. He pronounced the report idle talk, emanating from politicians at Carson, and said this was the first he had heard of it.

Theatrical Domestic Affairs.

Chicago, March 15th.—On the 8th inst., in New York, Mrs. Digby V. Bell was granted a divorce and alimony, with the proviso that her husband should not marry again. It now transpires that on the 11th Mr. Bell registered here with a new wife, known to the stage as Miss Laura Joyce. Bell explains that the prohibition against his marriage only applied to New York, and that he was married to Miss Joyce in Pennsylvania. Both are well known members of the dramatic profession, the lady having sung in "Evangeline," "Pirates of Penzance," and other like musical productions. The new Mrs. Bell figured in a prominent divorce suit some time ago, when she parted from Jones V. Taylor, a New Yorker.

The Crew of the Lost Orono.

New York, March 15th.—The steamship Grasbrook, Captain Schwauer, which arrived to-day from Aqus, brought nine shipwrecked seamen who belonged to the Norwegian bark Orono, which was lost February 9th on Elmaden Island, near the coast of Cuba. The Orono was bound from Cardiff for Havana, with a cargo of coal, and was commanded by Captain C. Muller, who, having mistaken the light, brought the bark close to the coast during the night of February 9th, and a heavy swell carried her out of her course. She struck heavily on Elmaden Island, where she remained fast. All attempts to float her proved futile, and she went to pieces.

Suicide of a Villain.

St. Louis, March 15th.—H. F. Crocker, the notorious horse-thief, suicided in a Texas jail a day or two ago. He left a written statement that he was born well connected in Georgia; had been in Texas since 1873; had killed three men and one woman during that time, and regretted that he could not kill two more men who had injured him, and that, being without money or friends, he preferred death to life in prison. He asked that his body be thrown in the river, and that no word of his miserable end should be sent to his relatives.

The Dead in the Diamond Mine.

Braidwood (Ill.), March 15th.—Only six and a half feet of water remains to be pumped out of the Diamond mine. The water now coming out must be directly from the place where the bodies lie, as it bears an insufferable stench, and the men at the pumps are obliged occasionally to get away from its influence and seek the fresher air. From this it is surmised that the bodies are horribly decomposed.

[SECOND DISPATCH.]

Braidwood (Ill.), March 15th.—The pumps have removed 3,600,000 gallons of water the past twenty-four hours, lowering it six inches. The stench from the shaft increases. The morgue for the reception of the bodies when recovered is nearly completed. The funds for relief have almost ceased to come in. About $28,000 has been received, which, it is estimated, will keep those in need for a year.

A Typographical Error.

Washington, March 15th.—In the printed copies of the tariff law sent out to Collectors yesterday there is an important typographical error. It makes the duties on hoop iron not thinner than No. 20 wire gauge "one and two-tenths of one per cent. per pound," instead of "one and two-tenths of one cent per pound." The first "per" in the official copy should be stricken out.

The Prize Fighters.

New York, March 15th.—The *Star* prints the acceptance of Sullivan's challenge to box Slade, signed by Fox, who says: "My representative will meet Sullivan to arrange a match any time after Sullivan heads the benefit at Boston. I understand Sullivan is going to Europe, and I would say if he desires to make his trip a success, it will be advisable for him to meet Slade before he leaves."

New York, March 15th.—Five hundred people attended the benefit for Elliott's mother. Harry Hill sent $50, and Sullivan sent $100. Nick Murphy, in the first round, knocked Ned Fox against the wall, and in the second round, knocked Fox out. Ten minutes were needed to revive Fox. Murphy left the hall in a hurry.

Rhode Island Republicans.

Providence (R. I.), March 15th.—The Republican State Convention met to-day. Every town is represented. Augustus O. Bourn, of Bristol, was nominated for Governor by acclamation, and Oscar J. Rathbun, of Woonsocket, was nominated for Lieutenant-Governor.

The Dukes Verdict.

Uniontown (Pa.), March 15th.—The indignation over Dukes' acquittal is unabated. The jurors were publicly hissed and jeered this morning, and they left town as soon as possible. Dukes has gone home to his mother's.

Uniontown, March 15th.—A meeting of leading citizens to-night passed resolutions strongly denouncing the jury which acquitted Dukes of the murder of Colonel Nutt.

Fire and Loss of Life.

Hartford (Conn.), March 15th.—The house of two maiden ladies named Judson, at East Hartford, was burned this morning. Both perished in the flames.

The Star Route Case.

Washington, March 15th.—General Brady resumed his testimony in the star route trial this morning. Cross-examination was conducted at great length as to the manner of granting expedition, and the reasons for it, on various routes.

One Hundred and Seven Years.

Louisville (Ky.), March 15th.—Mrs. Ellen Birmingham died in this city to-day, aged 107 years. She was a native of Tipperary, Ireland. She retained her faculties until four years ago, since which time she has been helpless.

Exhibition Billiards.

Philadelphia, March 15th.—Vignaux and Sexton gave a billiard exhibition to-night. Vignaux won a three-ball and the Balke line game, and Sexton the champion and a cushion carom game.

The Tallahatchie River.

Yazoo City, March 15th.—The Tallahatchie river at Sharkey on Saturday was six feet below that of 1882. Yesterday it was but seven inches below, and rising two inches a day. The swamps of Tallahatchie and Yazoo will absorb much of the water.

The Tennessee Debt.

Nashville, March 15th.—The bill to sell the State debt at 50 cents, with 3 per cent. interest, as it came from the House of Representatives, to-day, passed the Senate and awaits the signature of the Governor.

The Mississippi River.

Memphis, March 15th.—The river has declined five inches during the past twenty-four hours. Its fall will be more rapid now. Two feet more decline will put the river within its banks. Farming operations are being actively engaged in, and the outlook for the planting season in cheering.

Labor Matters.

Reading (Pa.), March 15th.—The Pennsylvania Hardware Company's molders have obtained an increase of wages. The Keystone rolling mills start up again soon.

Pottstown (Pa.), March 15th.—A strike for an advance in wages of the helpers of the Pottstown Iron Company throws 250 men out of employment. The proprietors favor running the mills to give steady work.

The Northern Pacific.

Bozeman (Mont.), March 15th.—The Northern Pacific track was completed here to-day. Regular trains will run within a week.

Carver and Bogardus.

St. Joseph (Mo.), March 15th.—In the shooting contest to-day Bogardus scored 63 and Carver 92 clay birds. Bogardus was sick.

Thermometrical.

New York, March 15th—Midnight.—Highest temperature, 52°; lowest, 26°.

Chicago, March 15th.—Highest temperature to-day, 40°; lowest, 23°.

FOREIGN NEWS.

Terrible Explosion in London.

London, March 15th.—A terrible gas explosion occurred in the local Government Board offices at Westminster at 9 o'clock to-night, destroying much property. The report was heard in the House of Commons, and caused alarm. The concussion was so great that it shook the side galleries and the reporters' gallery. It being the dinner hour, few members of the House were in the hall. The Duke of Edinburgh was in the peers' gallery, and seemed alarmed. The Speaker rang a bell, and asked the cause of the alarm. No one was injured. The wildest rumors are afloat. The report resembled the discharge of an 80-ton gun.

Later.—It is now believed that the explosion was caused by dynamite, and was a deliberate attempt to blow up the Government offices.

[SECOND DISPATCH.]

London, March 16th—A. M.—The explosion was undoubtedly the work of the Fenians. The adjacent streets are filled with myriads of fragments of glass, and heavy plate glass is lying in heaps on the ground. A stone weighing two hundred pounds was projected against the King-street police station, making a hole the size of a man's head. Nothing will be touched till an inquiry be made to-day. The full extent of the damage cannot be estimated till daylight. Five hundred constables are guarding the scene. The building has the appearance of having been bombarded. There is a deep trench, ten feet by three, in one room, the floor of which has been literally plowed. Two children sleeping in a house at the corner of King street were thrown from their beds by the force of the explosion, and their faces were badly cut. They were taken to the police station. Every pane of glass in the vicinity was shattered. A man was arrested at midnight on suspicion of being concerned in the explosion.

[THIRD DISPATCH.]

London, March 16th—A. M.—The explosion has been the subject of consideration in the House of Commons. Harcourt, Home Secretary, said he did not think it right to say anything about the matter until an official inquiry had been made. He had heard that an attempt had been made to blow up the *Times* office, but no injury was done. The explosion was heard at a distance of two or three miles. Yesterday evening a canister containing explosive material was found behind the *Times* office, with, it is rumored, a lighted fuse attached. The police are making investigations. The officials think the explosion was caused by gunpowder or dynamite. The officers of the gas company declare that they can find no evidences that it was caused by gas. The force of the explosion shot a large portion of masonry across the street.

Harcourt has had a conference with the Chief of Police, at which several witnesses were examined. The conclusion reached was that the explosion occurred inside the room, and not outside the building. After the explosion the force of police at the houses of Parliament was doubled. The Government offices and the residences of the Ministers are strongly guarded.

The *Times* attaches little importance to the explosion which occurred at its office. The canister contained only a small quantity of powder.

The *Daily News* says: It is of course obvious that the explosion was the result of premeditated design. We are confronted with the fact that there are in London persons bold enough to act on the wildest counsel of O'Donovan Rossa.

The *Times* says: The Fenian answer to Gladstone's speech on the Land Act was not long delayed. We are in the presence of the first attempt of the dynamite party to carry out the policy of bringing the war into the heart of London. The explosion at our office occurred at 7:45 Wednesday evening, but the falling of the canister prevented any serious damage. There is reason to believe that there has been two attempts of this kind by the same miscreants.

The Government offices—the part occupied by Sir Charles Dilke and Local Government Board—are in an immense building bounded by Parliament street, Downing street, Charles street and St. James Park. Charles street is dark and unfrequented at night, which partly explains the extraordinary fact that no lives were lost. The dynamite was placed on a window sill inside the balustrade, where the fuse, when burning, would be concealed from the view of anyone passing. The force of the explosion was terrific. The great stone balustrade was obliterated, the massive masonry torn into fragments, and the pavement shattered and ground to powder. A wooden structure opposite was blown into splinters, and a mass of stone was driven through the wall of the house beyond it. Inside the walls there remained nothing but splintered wood, broken plaster, and walls burst asunder—an indescribable scene of destruction. The street was completely covered with the fragments of plate glass, blown bodily out and shattered to atoms. The doors of the King-street police station were burst in by the force of the air, and the occupants were prostrated. Broken timbers and masses of stone were sent flying into King street. People crossing at Parliament street were knocked down. A hansom and horse were flung across the sidewalk against the front of the Whitehall Club, in which the great plate glass windows were driven in a shower into the rooms. Everywhere the greatest consternation prevailed. People poured out of their houses, the broken glass cracking under their feet. In the House of Commons the alarm was general, and many members left immediately. The lobby was emptied, and the people rushed out of Westminster Hall. Some 200 police and a detachment of the fire brigade took possession of Charles street, and drew a cordon around the building, which no one but members of Parliament and public officials were allowed to pass. As the alarm spread, excited bands flocked from all parts toward Westminster, and the most intense excitement prevailed, the report rapidly gaining currency that the House of Commons had been blown up. No one pretends to explain the motive or purpose of the act. It was ascribed to the Irish Invincibles, as a matter of course, and is described as a part of a Fenian plot, threat and warning to the Government. One thing only is certain—it was a deed of frightful recklessness and atrocity, and only an inexplicable good fortune prevented it from being attended with the most serious fatality.

The Oxford-Cambridge Boat Race.

London, March 15th.—The annual boat race between the crews from the Cambridge and Oxford Universities takes place on the Thames river this afternoon. The course will be from Putney to Mortlake, a distance of four miles and two furlongs.

[SECOND DISPATCH.]

London, March 15th.—The boats started at 5:41—Cambridge had the Middlesex side of the river, Oxford the Surrey side. Oxford led by a length at the Duke's Head, a short distance from the starting point, keeping the lead to the end, winning by three lengths. The result caused greater excitement than any previous race, in consequence of the heavy betting on the Cambridge crew, who at the start were favorites at 7 to 2. The defeat of a crew upon whom such odds were laid is unprecedented.

House of Commons.

London, March 15th.—Lord Edmund Fitzmaurice, Under Foreign Secretary, stated at the House of Commons this afternoon, in answer to Coleridge Kennard's question, that the Government had done nothing toward recovering the surplus of the Alabama award.

Affairs in Ireland.

Dublin, March 15th.—The Catholic clergy of the diocese of Swineford, county Mayo, have passed a resolution in which they charge the Government with neglecting the distressed people, and condemn the remedies offered—namely, the workhouse or emigration.

London, March 15th.—The Press Association says it is stated on good authority that James Mullett, one of the murder conspiracy prisoners, has given information implicating Patrick Egan and several others in the Dublin crimes. The information is said to be sufficient to justify the arrest of Eagan when he returns from America.

Advices from France.

Paris, March 15th.—Fifteen anarchists visited the office of the *Intransigeant*, and attempted to compel Henri Rochefort, the editor, to insert a note in the paper denouncing the report of the riot last Friday as slanderous. The police have since protected the premises, although Rochefort declined their services when proffered.

Explosives have been found in the house of a man named Pouget, who has been arrested. It is expected information touching the doings of the anarchists, more vital than any Louise Michel could furnish, will be obtained from him.

The Government has resolved to expel, upon the completion of their sentence, all foreigners who are convicted of complication in the riots here. They are mostly Germans.

A motion was announced in the Chamber of Deputies to authorize the prosecution of Savary, member of the Chamber and Director of the Rhone-et-Loire Bank for malversation, in connection with the affairs of the bank. Savary prevented the necessity of debating the motion by resigning his seat.

At the Socialist meeting in Champs de Mars, next Sunday, if the crowds refuse to disperse, three legal warnings will be given. If these warnings are not heeded, the rioters will be arrested.

Gortschakoff's Wishes.

Baden Baden, March 15th.—The funeral of the late Prince Gortschakoff took place from the Russian chapel here yesterday. The physicians who attended Prince Gortschakoff say there were enough grounds for the suspicion that he had been poisoned. The evidence of the Prince's mistress and his valet confirms the suspicion. In his will, made on his death bed, the Prince requests the authorities to suppress any inquiry as to whether he had been poisoned.

A Strange Disease Among Chinamen.

Ottawa (Ont.), March 15th.—Advices from British Columbia state that along the line of the Canada Pacific Railway the Chinese are fast disappearing from the ravages of a peculiar disease. Within a few days six died out of a gang of twenty-eight employed a few miles below Emary. The victim only lives half an hour after being attacked. There being no medical attendant provided by the railway company for the unfortunate Chinamen, the nature of the disease creating such a thinning out is unknown. The symptoms are swelling of the feet and legs, as in cases of dropsy, and soon the whole body is affected. The disease was known some years ago at Singapore as "Berrie berrie," and proved very fatal to the Chinese at that time. Bad food, it is thought, has something to do with it, and want of vegetable nourishment is supposed to be another one of the causes. When a Chinaman dies a natural death, or is killed, his remains are put in a rough box, often much shorter than the corpse, and placed somewhere out of the way, frequently but a light covering of earth hiding the box from the view of passers by. This way of doing things is complained of even by the Indians living along the line of the railway, for as soon as the water in the river rises and the sand washes off the boxes containing the dead Chinamen, the packages flow down the river to tide-water or go to sea.

SAN FRANCISCO ITEMS.

The Bank Commissioners have resumed the examination of banks.

Louis Janser, a Dane, 30 years of age, single, a coachman for Walter F. Hawley, was struck by a runaway team Thursday and almost instantly killed.

San Francisco merchants paid over $700,000 for duties on goods withdrawn from bond last month. This is a larger sum than for any previous February in ten years.

Dr. Dupuy reports that Chief Justice Morrison is improving very slowly. His friends, however, are sanguine of his ultimate recovery from his recent nervous prostration.

There were 673 passengers by sea at San Francisco in February, and 3,882 by the overland railroads. The departures embraced 610 by sea and 1,778 by land routes. The net gain in arrivals over departures in February was 2,167.

James Carson, an attorney of this city, and an ex-member of Assembly, was found on Eleventh street, near Folsom, Tuesday night, with his leg broken near the ankle. Officer Aitken got a wagon, and Mr. Carson was conveyed to his home. He stumbled into a rut, sustaining the fracture as described.

George Kells, the Second Assistant Engineer of the steamer Barnard Castle, who was rescued from drowning recently, died suddenly Tuesday night. In falling from the gang-plank of the vessel he struck the back of his head upon the wharf-stringer, and it is presumed this wound caused his death.

Lute Hauk, or Lew Houck, or "Doc Davis," as he is variously called, is still in the custody of the Sheriff of this city and county, and his case is still undisposed of, although its importance is recognized by every one as being second to none ever brought before a California Judge to hear and dispose of.

Captain McCullough, of the schooner Anna, that arrived in port Monday from Honolulu, states that the recent great tidal wave that visited the Island of Maui was a remarkable event. The water was so deep in the lower streets of Kahului that boats of considerable size went over the tops of the houses.

When Thomas Stuart opened his store Thursday he found the body of his son Charles, aged 35 years, with a bullet hole in his heart. He had evidently shot himself during the night. Deceased had been suffering from aberration of mind resulting from despondency caused by the loss of money by the failure of Duncan's bank.

Mary D. Waterhouse, as administratrix of Asbury Lee Waterhouse, plaintiff's late husband, brings suit in the Superior Court to recover $100,000 damages from the Southern Pacific Railroad Company for causing the death of said Asbury Lee Waterhouse at the Tehachepi railroad accident on the 20th of last January. The same plaintiff brings suit to recover $50,000 damages for personal injuries sustained by the same accident. She avers that her shoulder was dislocated and that she was otherwise greatly shocked and injured.

N. P. Vallejo, son of General Vallejo, is making large shipments of grapevine cuttings to Mexico. The General Government of Mexico, it is said, has sent an order for a million of these cuttings to be distributed among the Governors of several of the Mexican States. Mr. Vallejo has within a week past forwarded over 350 cases. Last Monday 50 cases brought down from his vineyard in Sonoma county, were taken from here by sea to Guaymas, and on the Saturday previous 300 cases were brought down, which were forwarded by the Southern Pacific to El Paso.

Ho Hing has filed a complaint in the Superior Court against the Southern Pacific Railroad Company, which sets forth that on the 29th of October, 1881, at China, the company, acting through its authorized agent, C. Koopmanschap, made a contract with plaintiff and other Chinamen to work on the road of the company for eighteen months at $30 per month. That the workmen began work on January 1, 1882, at El Paso, Texas, and continued in the service for ten months, but they were not paid for their labor. Therefore the Court is asked to give judgment in favor of plaintiff and his associates for $4,200, at the rate of $300 for each workman.

PACIFIC COAST ITEMS.

The cold weather injured the orange crop of San Bernardino many thousands of dollars.

Fifteen hundred dollars an acre was paid for land in Pasadena on which to build a hotel.

Weaverville saw a brilliant meteor last week. It was accompanied by a slight whirring noise.

The Crow Indians in Montana number 3,400, and are mostly engaged in stock-raising and agricultural pursuits.

The Longfellow Memorial Association of Boston has a letter from London, saying that all the preliminaries for placing the bust in Westminster Abbey are now arranged for. The niche selected is in the column standing between the memorial niche of Chaucer and the independent bust of Dryden, with a stream of light falling on the position, so that the bust will occupy the central and most conspicuous place in the "Poets' Corner."

A New Idea in Bridges.—J. F. Smith, of Leicester, England, has suggested a novel method of building bridges, either for temporary or permanent use, which seems to have many advantages both in simplicity and cheapness. Iron or steel cylinders, twenty, forty or more feet in diameter, constructed of plates riveted to roll iron or steel ribs, are rolled into the stream over which it is desired to carry the bridge. These gigantic cylinders, with half their diameters sunk under the water, form so many arches, upon which a level road can easily be thrown. The cylinders can be built upon the spot where they are required, or, filled in with a temporary floor at one end, can be readily floated to their destination. The system is expected to be useful in laying railroads across land subject to occasional floods.

For the Treatment and Cure of
DEAFNESS, CATARRH
—AND DISEASES OF THE—
EYE, EAR, THROAT and LUNGS

FOR UPWARDS OF TWENTY-FIVE YEARS DR. LIGHTHILL'S professional attention has been exclusively devoted to the relief and cure of these important ailments, and it is with pardonable pride that he refers to the success which he has achieved in this special department of medical science. His apparatus and appliances for the examination and treatment of the hidden cavities of the head, throat and air passages are original, and confessedly the most perfect of anything of the kind yet devised, enabling him not only to readily discover the exact nature of the complaint, but also to direct his applications to the diseased parts so effectually that relief is experienced at once, and permanent cures are often effected in the most stubborn and aggravated cases. And it is one of the happy features of his practice that the applications cause neither pain nor distress, and can therefore be readily administered to the most timid or nervous person.

A candid opinion will invariably be given as to the probabilities of a cure, and no case will be accepted for treatment which does not offer a reasonable chance of success.

THE SACRAMENTO ROLLER SKATING Association is now in active operation at the Pavilion (main hall), corner Sixth and M streets. Open every morning from 10 to 12; afternoons, from 2 to 4:30; evenings, from 7:30 to 9:30 (Sundays excepted). Morning sessions for lady members only. The public are not admitted. The respectable portion of the community are invited to membership. Leave address at M. S. Hammer's drug store, corner of Fourth and K streets. Members are permitted to bring their visiting friends from abroad. No residents will be admitted unless having been fully approved by the committee of the association.
A BRASS BAND will be in attendance Tuesday Thursday and Saturday evenings; skating to continue one hour longer (until 10:30) Saturday evening. In order to enable the management to incur this additional expense, male members will be assessed 25 cents a week extra (Saturday evenings). Membership free passes will not be accepted on Saturday evenings, but the regulation fees will be due on entering. Masquerade Skating Carnivals will be given once a month—the next one will take place on March 17, 1883. S. R. S. A.

LOCAL INTELLIGENCE.

KNIGHTS TEMPLAR INSTALLATION, BANQUET AND PRESENTATION.—The annual installation of officers of Sacramento Commandery, No. 2, Knights Templar, took place at their Asylum in Masonic Temple last night, the following officers being duly installed for the ensuing year: Eminent Commander, Edward Lyon; Generalissimo, Charles M. Coglan; Captain-General, Wm. B. Miller; Prelate, John W. Rock; Senior Warden, Edwin Glover; Junior Warden, T. C. Peckman; Treasurer, A. A. Van Voorhies; Recorder, A. A. Redington; Standard Bearer, W. R. Jones; Sword Bearer, Chas. H. Stevens; Warder, Wm. F. Jackson; Guards, Frank Flemisg, R. P. Burr, Joseph Davey; Sentinel, George F. Bronner. The ceremonies were conducted by Past Commander E. B. Willis, with Past Commander C. Kellogg as Marshal. After the services were over the Knights repaired to the banqusting hall adjoining and partook of a bountiful repast. After ample justice had been done to this part of the programme, J. C. Tubbs, in a complimentary speech, presented to the retiring Eminent Commander, E. B. Willis, a beautiful Past Commander's jewel of solid gold, richly enameled and engraved, and bearing on the reverse side the inscription: "Presented to E. B. Willis, Past Commander, by members of Sacramento Commandery, No. 2, Knights Templar." The recipient expressed his appreciation of the fraternal gift in appropriate terms, after which several speeches were indulged in.

CHINESE WITNESSES.—In the trial of Lee Hung for arson, which is now in progress in Department One of the Superior Court, many Chinese witnesses have been examined. It is well known that when a Chinaman is called to testify in Court he never understands a word of English, notwithstanding that if he were to meet a person on the street he could make himself as intelligible as many Americans. The interpreter in the Lee Hung case is a young American boy, 18 years of age, named Carl Rickards, from San Francisco. The Chinamen do not like the idea of having other than a Chinaman as interpreter, and claim they do not understand many of the questions. Yesterday a Chinaman who claimed he did not understand a word of English was put on the witness stand. There were two stores in question, and the attorney was endeavoring to learn from the witness which one was the nearer to a certain street. The question had been asked a number of times and in many different ways, but the store could not be located. The Celestial became exasperated, and, turning to the lawyer, said: "Him between Second and Third streets. You too muchee smartee!" There have been other similar cases. The Court-room is always well filled with Chinamen, who are much amused at the presence of an American as an interpreter.

MILITARY REVIEW.—Last evening Armory Hall was filled to its utmost capacity to witness the review and dress parade which was tendered to Brigadier-General Carey by the companies of the First Artillery Regiment located in this city. General Cosby and Colonel Tobin were present. About one-half of the occupants of the galleries were ladies. The hall had been handsomely decorated for the occasion, and the companies made a good appearance. After the review the troops were formed into a skeleton brigade of four regiments for dress parade. The line was formed by Major Harney, as Assistant Adjutant-General, and the parade was conducted by General Carey. Line and staff officers were detailed to act as field officers and Adjutants of the regiments. The parade was very satisfactory, and much applause was received from the spectators. After the parade the full regiment band, which was present, played a waltz, and a large number of those present joined in a dance.

THE YOUTHFUL TRAIN WRECKER.—Alfred Bartlow, the colored boy about 14 years of age, was examined in Woodland on a charge of misplacing the switch at Swingle's Station, in Yolo county. The testimony adduced went to show that Bartlow was attempting to steal a ride on the freight train from Sacramento to Oakland, and that he was put off the cars at or near Davisville. He then started to walk back to Sacramento, and upon arriving at Swingle's Station procured a rock, battered the switch-lock until he opened it, and then turned the switch. He confessed to the arresting officers that he did this for revenge on the men who put him off the train. He was held to answer in default of $1,000 bail.

THE PAVILION TAX.—Yesterday afternoon the Board of City Trustees held an informal meeting to consider the subject of levying the $30,000 Pavilion tax. A committee waited on them, and asked that the tax be added to the levy which was recently made. The members were in doubt as to the legal right of the Board to do so, and City Attorney Anderson, who was present, expressed the opinion that it could not be legally done. The members state that the levy will not be made at once, but will be made a special levy some time during the summer, and in sufficient time to be collected by the 1st of September.

AUCTION TO-DAY.—Bell & Co., auctioneers, will sell to-day, at the residence, No. 905 G street, at 10:30 A. M., on account of departure from the city, in part as follows: Cottage set, springs and top mattresses; bedsteads, springs and top mattresses; thirteen wood-seat chairs, six office chairs, Brussels carpet, mirror, two round tables, two bracket lamps, large box stove, cook stove and fixtures, and kitchen safe; also, a large lot of bar bottles, beer glasses and bar tumblers, and a large assortment of crockery, glass and tinware, wood and garden tools.

BOARD OF AGRICULTURE.—The Governor yesterday appointed as members of the Board of Agriculture for District No. 13, for the term of four years, M. Marcuse, D. E. Knight, A. D. Cutts, and N. D. Coombs, of Yuba; James Littlejohn and R. H. Walton, of Sutter; Charles F. Reed, of Yolo, and W. S. Manlove, of Sacramento. The four counties of Yuba, Sutter, Sacramento and Yolo, comprise District No. 13.

ANOTHER MILITARY BALL.—Another military ball is announced this morning, being that of Company A (City Guard). It is the annual ball of the company, and together with an exhibition drill, will be given in honor of Brigadier-General Carey. It will take place at Armory Hall on Friday, the 23d inst.

WORK OF THE LEGISLATURE.

New Laws as Aproved Up to Noon Yesterday.

We continue our list of bills approved by the Governor. The following, in addition to those already published in the RECORD-UNION, were filed with the Secretary of State up to noon yesterday. Our last chapter was XLV.:

Chap. XLVI.—Street railway companies charging in excess of 5 cents fare must furnish any quantity of tickets or checks demanded, or forfeit $200 to complainant. Approved March 13th.

Chap. XLVII.—Not filed yet.

Chap. XLVIII.—Repealing the Pharmacy Act. Approved March 13th.

Chap. XLIX.—Not filed yet.

Chap. L.—Appropriating $5,000 to maintenance of the Mining Bureau. Approved March 13th.

Chap. LI.—Hair of criminals in county jails to be cut whenever a Board of Health or the County Physician certify it to be necessary to protect or improve health, etc. Hair when cut is to be to uniform length, 1½ inches. But this not to apply to prisoners who are in for 15 days or less. Approved March 13th.

Chap. LII.—Officers not to absent themselves from the State for over sixty days, or without the consent of the Legislature. Approved March 13th.

Chap. LIII.—Eleven thousand dollars appropriated for the Normal School building and grounds at Los Angeles. Approved March 13th.

Chap. LIV.—Relative to persons committed as insane, being required to bear expenses of their care, where they have the ability. Also for appointment of guardian for same, etc. Approved March 13th.

Chap. LV.—Concerning sheep-killing dogs, and actions for damages by such, and necessary proof as to habit of dog, and knowledge of its owner of such habit. Approved March 13th.

Chap. LVI.—Appropriating $27,000 for buildings and lands at Napa Insane Asylum. Approved March 13th.

BRIEF NOTES.

Sixty-seven emigrant passengers will arrive this afternoon.

Yesterday officer Eldred arrested an insane man named Manuel Faria and took him to the County Jail.

The steamer Neponset arrived yesterday from the upper Sacramento with produce and barge Anna Metha, with wood for master.

The arson case of Lee Hung, which has been on trial for several days before Judge Armstrong, will probably go to the jury this afternoon.

In the Police Court yesterday Louis Weaner pleaded guilty of battery and was sentenced to pay a fine of $25 or be confined in the County Jail twenty-five days.

Yesterday officer Hutton, of San Francisco, came up and got a man named Carston Will, who had been arrested by officers Farrell and George Karcher on a dispatch from Chief Crowley of San Francisco.

Michael Sullivan was arrested last evening by officer Carroll for the petty larceny of some tea and sardines from a grocery store on Second and I streets. He is an old offender, and has been in the chain-gang several times.

James Connors, a young man, was arrested last evening by a citizen while in the act of entering a house on Sixteenth and K streets, and handed over to officer Ash. The young man had a pal on the street, who ran away. Connors was charged with attempt at robbery.

"Doc" Real was arrested last evening by officers Ash and Woods on a warrant, charging him with misdemeanor, which was issued last December. It is alleged that he borrowed a shotgun from a friend for the purpose of going hunting, and then sold the gun and left the city.

The examination of F. M. Rahm, for the murder of John Maltby, is set for 1 o'clock this afternoon, to take place before a Justice in Woodland. One of the attorneys for the prosecution is engaged in a case now before the Superior Court in this county, and a continuation until to-morrow morning will be asked, which will probably be granted.

RECEPTION OF CLUBS.—Mr. and Mrs. E. R. Hamilton gave a reception at their residence last evening to the La Gaiete and the Bric-a-Brab clubs, of both of which they are members. The entire residence was thrown open to members of the clubs. There was no dancing, but a very interesting programme was rendered under the auspices of the Bric-a-Brac Club, Norton Bush presiding. It included vocal solos by Miss Minnie Fleissner, piano solos by Miss Daisy Siddons, Miss Millis Gregory and Professor Fleissner, vocal solos by Miss Emma Felter, Shakespearean reading by Miss Mattie K. Powers, baritone solos by Alexander Pritchard, tenor solo by Dr. Wood, and piano duet by Professor Fleissner and Miss Lizzie Griffin. At 10:30 o'clock the entire company, about ninety in number, were escorted by Colonel Hamilton to Fisher's dining-rooms, where an elegant repast had been prepared. During the supper the Cliff House Orchestra, of San Francisco, discoursed excellent music. The same orchestra played at intervals at the residence. There were several ladies and gentlemen from abroad present, but beyond that there were no guests excepting the members of the club. One of the rooms was occupied with art and other specimens as follows: One Kensington embroidery screen and three flower pieces, by Mrs. E. R. Hamilton; four table-covers (oil and velvet), one banner screen (oil and velvet), and one landscape on velvet, by Miss Kendall; outline embroidery table-cover and napkins, by Mrs. J. H. Lewis; two oil plaques, two flower panels, three screens (oil on satin), and six porcelain plaques, by Mrs. J. H. F. Peck, San Francisco—through Miss Emma Felter's kindness; Little Silver Lake, oil landscape, by W. F. Jackson; mountain stream and one figure piece, by W. F. Jackson; two flower pieces in oil, three fire screens, with oil plaques (landscapes), three panels (oil landscapes), two oil plaques, by Norton Bush; forty pieces porcelain painting, by Mrs. W. A. Hughson; crayon portrait, by Miss Amelia Klippel; crayon portrait, by Miss Alice May; Kensington embroidery, dress panels, by Miss Jeannette Hamilton; collection of choice flowers, by Mrs. C. H. Ross. The entire affair was a marked social event, and for liberality, and cordiality of hospitality, has not been surpassed this season. Mr. and Mrs. Thomas Whiffin, of the Madison Square Theater Company, entertained the guests with several songs, and Mr. Whiffin played a violin solo, on which instrument he is an enthusiast.

"YOUNG MRS. WINTHROP."—The Madison Square Home Theater Company appeared at the Metropolitan Theater last evening in the new and popular society comedy drama, "Young Mrs. Winthrop." The actors are all skilled, and probably no better company in that class of drama has ever visited this city. With the exception of Miss Carrie Turner, who plays the part of Mrs. Winthrop, the company is the same that played an engagement here a few weeks ago, presenting the drama "Esmeralda," since which time the company has played very successful engagements in San Francisco and other places on the coast. Douglas Winthrop, in the drama presented last evening, is a man of business, and after the novelty of having a young wife had worn away he ceased his loving attention and applied himself more closely than ever to business. A coldness grew between the pair, which caused the husband to spend the time formerly devoted to his wife at his club, and finally, with scarcely an apparent reason, a separation took place. After a long time the error was discovered, and the play closed with a general reconciliation and a happy family. At one point in the performance, where a child dies while the mother is at a ball, many in the audience were melted to tears. The patronage last evening was not as great as the company deserves. The same play will be presented this and to-morrow evenings and matinee to-morrow. There is no extra charge for reserved seats. The next attraction at the theater will be the return of Rice's Surprise Party, which is underlined for an engagement of three days and matinee, commencing on next Thursday evening, the 22d instant.

THE ILLEGAL VOTERS.—Yesterday morning John Ryan and Jose Vasquez pleaded guilty to the charge of illegal voting at the recent election. Judgment will be pronounced this morning. The case of Michael Scott, held on a similar charge, was continued for trial until this morning.

SPRING VEGETABLES.—We are in receipt daily, direct from the growers, of a large invoice of cucumbers, string beans, new potatoes, green peppers, tomatoes, green peas, with all other variety of vegetables in season. All orders, large or small, will receive a close attention. D. DeBernardi & Co., Nos. 308 and 310 K street.

MILLINERY GOODS!—New and latest styles just opening at Millinery Parlors, at Red House.

MEN'S fine sewed, button Oxfords; cloth top; London toe and tipped. Price, $3. Placed in stock yesterday at Red House.

MEN'S fine calf, button shoe; London toe and tipped, sewed. Price $5, at Red House.

SEE the prices placed on clothing, at the great combination sale at the Red House.

NEW invoice of clothing opened at Red House to-day.

COMMERCIAL.

San Francisco Produce Market.

SAN FRANCISCO, March 15th—1 P. M.

FLOUR—Best City Extra, $6 25@6 50; Medium Grades, $5 50@5 75; Shipping Superfine, $4 25@5 ₱ bbl.

WHEAT—Is dull and inactive. Shippers are not buying anything to speak of, while millers are not stocking ahead to any extent. Prices range from $2 to $2 05 for good to choice qualities. Pressure of sales at the higher figure would not at the moment be successful, even if the standard were well up to choice milling grades. Yesterday a lot of what might be considered good milling changed hands at $2 02½ ₱ ctl. The quietude of the situation is represented by the fact that not one sale was negotiated at the call session of the Produce Exchange this morning. Such a lack of interest has not been witnessed since the 20th of last month, at which time the market took a turn for the better, both for business and prices.

At the Grain Exchange this afternoon a pretty fair record was made, considering the dullness of the situation. Sales embraced 200 tons No. 1 White, April, $2; 100 do No. 2, April, $1 91½; 900 do, $1 91 ₱ ctl.

Quotations of No. 2 grades Wheat at leading centers to-day are telegraphed as follows:

	Chicago.	St. Louis.	New York.
Spot, ₱ cental	$1 79½	$1 80	$2 01½
March	1 76½	1 80	1 98½
April	1 77½	1 85	2 01
May	1 80	1 88½	2 04½
June	1 80½	1 87½	2 05½

The Chicago quotations represent Spring, while the St. Louis and New York figures are for Red Winter qualities.

BARLEY—The market was decidedly stronger to-day. On the street it was reported that the inquiry was all that could be wished, and buyers seemed prepared to pay asking prices, which were generally gauged on a basis of $1 40 ₱ ctl for No. 1 Feed. Brewing of first quality is held as high as $1 50, though sales are reported at $1 47½ ₱ ctl. On call, a good average business was done, and prices were steady at 2@3c ₱ ctl advance on the quotations of yesterday morning. Sales include 100 tons No. 1 Feed, April, $1 38; 300 do, $1 38½; 100 do, May, $1 38; 700 do, $1 38¾; 200 do, buyer the season, $1 41½; 1,600 do, $1 41½; 200 do, $1 41; 200 do, seller the season, $1 36½; 200 do, $1 36¾; 300 do, seller 1883, $1 25; 100 do, $1 25½; 300 do, $1 25½; 100 do, No. 2 Feed, seller 1883, $1 19 ₱ ctl.

OATS—There does not seem to be any lack of custom, even if values be high. Some liberal transactions were negotiated on 'Change to-day, embracing 300 bags extra choice, $2 02½; 300 do, No. 1, $1 90; 1,300 do, No. 2, $1 85; 1,000 do, $1 82½; 500 do, $1 80 ₱ ctl. Stocks are fairly large, but strongly concentrated. We quote: Fair Feed, $1 75@1 80; good, $1 85@1 90; choice, $1 90@2 ₱ ctl.

CORN—More or less Nebraska comes to hand each week. Trade is quiet and prices do not vary to any extent. California is quotable at $1 70@1 75 ₱ ctl.

HAY—The tone of the market is good, and consignments are not hard to place within our range. Alfalfa, $16@18; Wheat, $18 50@21; Wild Oat, $18@21; Mixed, $18@19 ₱ ton.

BUCKWHEAT—Holders want $4, but the views of buyers are within the range of $3 25@3 50 ₱ ctl.

HOPS—No trade. Nominal at 85@95c.

SEEDS—Buyers are scarce. Mustard, $3 25@3 50 for Brown and $2 15@2 25 for Yellow; Canary, 5@6c; Hemp, 4½@5c; Rape, 1½; Timothy, 10@11c for Imported; Alfalfa, 12@13c; Flax, 2½@2c ₱ lb.

POTATOES—A slight improvement in values is noted. River Red, 55@65c; Early Rose, 60@70c; Petalumas and Tomales, $1@1 10; New, 3@3½c ₱ lb.

ONIONS—Prices continue irregular. Small sales were made to-day at $1 65, which was the top of the market. Good and medium went at a range of $1 25 to $1 50, while inferior lots are still seeking custom at 25c ₱ sack.

BEANS—No heavy offerings on the market. Bayos, $4 50@5; Butter, $3@3 25 for small and $3 40@3 50 for large; Limas, $3 75@4; Peas, $3 75@4; Pink, $4 50@5; Red, $4 50@5; small White, $3 75@4; large White, $3@3 25 ₱ ctl.

VEGETABLES—Sweet Potatoes, 4@5c ₱ lb; Potatoes, 85c@$1 50; Salt Lake, $1 40@1 50 ₱ cwt; Onions, $1 90@2 ₱ cwt; Cauliflower, 75c@$1; Cabbage, $1@1 10 ₱ cwt; Carrots, 50@60c ₱ sack; Turnips, 60@75c ₱ 100; bunch vegetables, 12½c ₱ doz; Parsnips, 1c; Beets, 1c; Celery, 60@75c ₱ dozen; Horse Radish, 6@7c ₱ lb; Artichokes, 75c ₱ dozen; Jerusalem Artichokes, 3@4c ₱ lb.

BREADSTUFFS—Flour, $6 50 ₱ bbl; Oatmeal, $4 50@6 50 ₱ 100 lbs, latter for Eastern; Cornmeal, yellow, $2 25@2 38; white, $2 50; Cracked Wheat, $3 50.

POULTRY—Live Turkeys, 16@17c ₱ lb; dressed, 17@18c; full grown Chickens, $6 50@7 ₱ dozen; young Roosters, $7 ₱ dozen; Broilers, $4@5; tame Ducks, $3@9; Geese, $1 50@2 ₱ pair; Eggs, choice lots 20@22½c ₱ dozen.

GAME—Mallard Ducks, $3 ₱ dozen; Canvasbacks, $3 75@4 ₱ dozen; Sprigs, $1 50; Teal, $1 25; Hare, $1 75@2; Rabbits, $1@1 50; Doves, 50@75c ₱ dozen.

DAIRY PRODUCTS—Butter, choice, 23@25c ₱ lb; mixed lots, in rolls, 20@22c ₱ lb; Cheese, California, from 14@15c; Western, flats, 10@15c; Marin's Cream, 19@20c.

MEATS—Beef, 7@8c; Mutton, 6c ₱ lb; Lamb, 7@8c; Pork, 10@11c; Veal, small calves, 9@10c; large, 8c.

HAY, GRAIN AND FEED—Oat Hay, ₱ ton, $10@21; Alfalfa, $10 to $12 ₱ ton; bran, ₱ ton, $17; middlings, $23 per ton; barley, whole, $1 50; ground, $1 60; wheat, $1 85@2 ₱ cwt; tame oats, ₱ cwt, $2 25; corn, $1 75@1 80 ₱ cwt.

MISCELLANEOUS—Seeds—Alfalfa, 12@13c; Timothy, Eastern, 10@11c ₱ lb; Oregon, 4@10c; Red Clover, 17@18c; Red Top, 12½@14c; Nuts—English Walnuts, 10@11c; California Walnuts, 10@11c; Almonds, 15½@16c; Peanuts, Eastern, 8@10c; California, 8@9c; Tallow, 7½c; Lard (California), 10-lb cans, 14c; Eastern, 16@17½c; Hides, salt, light and medium, 8@9c, and heavy 9@10c; dry, 18@19c; Hops, offering 80@90c ₱ lb; asking 90@95c.

Good Babies.

'Tis a jolly day from East to West,
For children thrive, and mothers rest,
The darling girls all named Victoria,
And with the boys, they have **Castoria.**
It is a fact, there is no "may be,"
A mother's milk can't save the baby,
While sweet **Castoria** digests their food,
Gives them health and makes them good.

THE GOAT AND THE BOY.

The goat stood by the bill-board,
And he tore a yard or so
From the gaily-colored bills which were
To advertise the show.
And as he chewed reflectively,
With a quiet, soulful joy,
Another person appeared—
An unsuspecting boy.

He did not see the animal,
Which, rampant, doth appear
With forefeet on the open keg
Which holds the springtide beer;
But he gazed upon the posters,
And his young heart filled with glee,
For his means would gain him entrance
To the upper gallery.

The capricorn, however,
Saw the boy, and straightway he
Left his meal, and bied him thitherward
With great velocity.
The boy went through the bill-board—
But the goat, unmoved by that,
With placid mien stood still and ate
The boy's abandoned hat.

In Massachusetts there is one divorce to twenty-one marriages; in Vermont, New Hampsire and Connecticut about one to fourteen; in Rhode Island one to twelve; in Maine one to eight.

"Nice fellow!" she exclaimed; "well, I should think he was! Why, he don't do any business, he belongs to three clubs, has $50,000 a year, is divorced from his wife, and has led about thirty germans this season."—[New York Mail and Express.

It is noticeable that regular army recruiting officers say the poorest class of men offering to enlist are mill operatives, who are of poor physique, lack muscular development, and have their entire systems weakened by the character of their work.

The *Inter-Ocean* does not seem to take to our Pacific coast poet. It says: "Joaquin Miller confesses to have tended bar out West before he became a poet. This shows how easily men drift from duties for which they are adapted to those for which they are not."

A Parisian lady called on her milliner the other day regarding the character of a servant. The respectable appearance of the latter was beyond questioning. "But is she honest?" asked the lady. "I am not so certain about that," replied the milliner. "I have sent her to you with my bill a dozen times, and she has never given me the money."

A countryman took a seat at a hotel table opposite to a gentleman who was indulging in a bottle of wine. Supposing the wine to be common property, our unsophisticated countryman helped himself to it with the gentleman's glass. "That's cool!" exclaimed the owner of the wine, "Yes," replied the other, "I should think there was ice in it."

According to Dr. Tuke, the English hygienist, idleness and ignorance are much more prolific causes of disease among women than overwork. They are the main causes of hysteria, and of many other evils, including inanity and insanity. The breakdown from overstrain does occasionally take place, and the first important symptom is sleeplessness; when that sets in there is cause for alarm.

An Eastern man sold a poor horse a few days since, which was to be paid for by weight, with tare deducted for the bones. An official weigher was secured, the horse weighed and the weigher's official report made. It was as follows: Total weight, 625 pounds; tare of bones, 600 pounds; total weight to be paid for, 25 pounds. The seller wanted $125 for the horse. Under the stipulation he received $12 50.

The story told by a Washington paper may not be true. As it runs, Senator Beck, of Kentucky, who came a poor boy to this country from Scotland, worked on the same farm in Livingston county, that State, that Secretary Teller worked upon. When they met in the Senate Mr. Beck said: "Well, Henry, when we used to drive old Brown's oxen we never expected to meet in the United States Senate." "No, Jim," said Mr. Teller; "we didn't know there was such a place."

Another plaster cast of a human form has lately been taken from the mold left in the ashes of Pompeii. From the place and posture it is evident that the man was overtaken by the ashes while endeavoring to escape, and was suffocated. The figure is lying on its back, the head is bent backward, and the skull is perfectly preserved. The open lips disclose five upper and five lower teeth, white and even. The left arm is half raised and the fingers one-half shut; the right arm is pressed against the body and the closed fist rests on the stomach. Two small keys were found near the body.

Miss Louise Chester, for many years janitress of the New York Custom House, died in Brooklyn last week. She had long lived a secluded life and shunned all society. Her only companions were three parrots, a couple of tropical birds, several sweet-singing canaries, and four or five cats and dogs, whose presence gave the house which Miss Chester owned and occupied the appearance of a small-sized menagerie. Her coming in was sure to be hailed with the barking of the dogs, the mewing of the cats, and the impudent volubility of the parrots, who evidently felt their superiority over the remainder of the inmates, from the fact that they could almost talk a politician to death. Miss Chester had a fortune of over $50,000, and was very charitable. She never would speak of herself, and her past life was a mystery.

I am very glad to say I have tried Hop Bitters, and never took anything that did me as much good. I took two bottles and I would not take $100 for the good they did me. I recommend them to my patients, and get best results from their use.

HOW TO STOP THE FLOW OF BLOOD.—If a man is wounded so that blood flows, that flow is either regular, or by jets or spurts. If it flows regularly, a vein has been wounded, and a string should be bound tightly around below the wounded part, that is, beyond it from the heart. If the blood comes out by leaps or jets, an artery has been severed, and the person may bleed to death in a few minutes; to prevent which apply the cord above the wound, that is, between the wound and the heart. In case a string or cord is not at hand, tie the two opposite corners of a handkerchief around the limb, put a stick between and turn it round until the handkerchief is twisted sufficiently tight to stop the bleeding, and keep it so until a physician can be had.

POKER IN WASHINGTON.

"Senator Tom Bowen, of Colorado, is the best poker player we have in town. Why, the second night he was here, Plumb of Kansas, and Jones of Nevada, sat down with him to a little game, and I am told that he scooped the party to the extent of two or three thousand dollars in half an hour. But Bowen has lost more than he has won during the last few years."

"Who are the poker players in Congress?"

"There are very few who have seats in the Senate. Old Lapham plays occasionally, and so do Hale and Vest, but as to the others it would disgrace the game to say they played at all. These are not the times we used to have when Grant was President."

"Is Arthur much of a player?"

"Well, yes; and I guess he is about as 'cagey' as any of them. He will sit up all night over a game of poker, when nothing else in the world will hold his attention. Chandler is a sharp one, too, and I understand that he and Congressman 'Dick' Crowley are about the most expert of that set."

"What set?"

"Why, the White House set. They tell me that they play it 'blind' in deference to Arthur's wishes, and I understand that this has been the popular way of running the game here this season. In the 'draw' game there is a little chance for skill, but 'blind' poker, in which you don't draw at all, is the most outrageous form of gambling. But, of course, you know all about it."

"Joe Blackburn can deal the pasteboards with as much grace and celerity as any man I know of, and will back his hand to almost any amount. Young Walker, of Pennsylvania, is what is commonly known as a 'daisy cutter,' and Springer, of Illinois, swears by the jack of clubs. The Western men are by far the best card players. I think Tom Young, of Cincinnati, an ex-Governor of Ohio, is about as smart a one as ever set foot in Washington, and the man who can bluff him out of a hand has to get up pretty early in the morning. But the poker-playing here just now is nothing to what it was at Albany when Boss Tweed ruled the deck." [Brooklyn Eagle.

ANOTHER RIP VAN WINKLE.

A very peculiar and remarkable case has just come to light in the State Asylum for the Insane at Buffalo, New York, being that of a man of German descent, who hails from a large town in Southern Ohio. He was found lying in a street here one day over a year ago, and was taken to the police station by an ignorant policeman who believed him to be intoxicated. There his real condition was discovered by a physician, and he was hurried away to the Insane Asylum. The man has spoken but once during the time he has been an inmate of the asylum. Then he declared incoherently that the "Lord had commanded him to sleep," and that he "would be awakened by the Lord when it suited His pleasure," or words to the same effect. The man is insane, his peculiar delusion being that he must sleep, and sleep he certainly does, for he is utterly unconscious, and has been for over a year, being feed on liquid food, just as an infant would be. His eyes never open, and when raised up in bed, if his support is withdrawn, he will sink down as limp as a dead person. Various devices have been resorted to in the vain endeavor to arouse him from his lethargic condition, including electricity, shower baths, trickery, etc. In presence of the correspondent, Dr. Granger, one of the attending physicians, pinched the patient's flesh in sensitive parts, but not a muscle moved or quivered, yet when the head-board of his bedstead was soundly rapped upon with a brass key, the patient's face twitched convulsively. The man has excellent family connections, and a brother of his declares that no insanity was ever noticed in his brother previous to his coming to Buffalo on a visit, when he was overtaken by his present great misfortune. Dr. Granger states that the case is a rare one, only one or two such being on record. He also states that the patient is liable to arise at any moment, either a perfectly sane man or a combative, destructive, raving maniac. He believes him to be cognizant of all that transpires in his presence. He is 30 years of age, and unmarried. The case, when it becomes more publicly known, will certainly awaken widespread attention in scientific and medical circles.

PROPOSALS

FOR

PLANS

OF AN

EXPOSITION BUILDING

THE STATE BOARD OF AGRICULTURE WILL receive proposals for Plans of an Exposition Building, to be built upon Capitol Park, at Sacramento—said structure to be of modern architecture, style similar to that of Sacramento and Oakland railroad depots. Size of building to be 200 feet wide by 400 feet long, with gallery 40 feet wide, extending around and forming an inside court. Offices, three in number; size, 28x17, over main entrance—the same to be connected by sliding doors. The cost of the entire building not to exceed $70,000. Three hundred dollars will be given for the successful plan.

Plans Considered Monday, April 9, 1883.

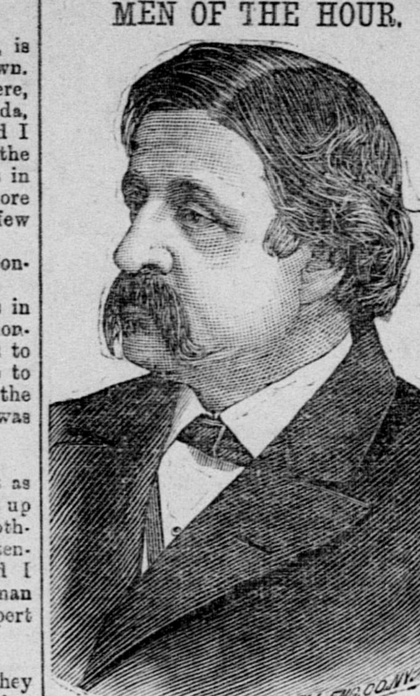
MEN OF THE HOUR.



HON. THOMAS W. PALMER,

SENATOR-ELECT FROM MICHIGAN.

Thomas Witherell Palmer was born January 25, 1830. His father, Thomas Palmer, was a well-known business man of Michigan, and his mother, whose maiden name was Mary A. Witherell, was a sister of the late Judge Witherell of the Wayne Circuit Court. The Senator-elect was educated at the University of Michigan, Ann Arbor. After leaving college he made a pedestrian tour in Spain, and supplemented this experience with a brief residence in South America. He married a daughter of the late Charles P. Merrill, owner of one of the largest lumber businesses in Michigan, and became associated with his father-in-law with its management and ownership. Mr. Palmer and his wife inherited Mr. Merrill's business interests on the death of that gentleman, and the Senator-elect continues the sale of lumber at various points in the State, where he is represented by agents acting as local partners. Mr. Palmer has served one term as a State Senator. He was defeated as a candidate for Congress in the campaign of 1876.

The Mechanism of Man's Body,

Though intricate and delicate, is yet substantial enough to resist many of the assaults made upon it by its possessor. Over indulgence in eating, repeated alcoholic excesses, and other follies sometimes fail to overthrow a vigorous constitution at once, but if kept up in spite of the warnings nature gives, they eventually sap it. Their prudent discontinuance, combined with the use of Hostetter's Stomach Bitters, often repairs the damage they cause, and digestion, nerve tranquillity, appetite and repose are often re-established upon the former basis of health by the use of the great restorative, in conjunction with a rational attention to sanitary laws. This leading medicine cures fever and ague, rheumatism, dyspepsia, constipation, and other inorganic maladies. None but the purest and most salutary ingredients enter into its composition.

SKINNY MEN.—"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence. $1.

DYSPEPSIA, the bug-bear of epicureans, will be relieved by Brown's Iron Bitters.

HARVARD UNIVERSITY.

Health! Health!

Health! Health!

CONSULTATION FREE—I INVITE THE SICK, no matter what their diseases may be, to call and investigate for themselves before abandoning all hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion and reasonable in my charges. I claim not to cure every body, but to cure all that can be cured. I am formerly from New York City, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diploma and the numerous recommendations in my possession, which will always be ready for inspection at my office. I have located permanently in this city, and all I ask is that you give me a fair, unbiased trial, by which I hope to merit your confidence and give entire satisfaction to all suffering humanity. My reputation has been acquired by candid, honest dealing, and years of successful practice. I know the cause and remedy needed, not by guess-work, but by years of experience in the treatment of various diseases.

CONSULTATIONS at my Office, Corner Eighth and K streets (Clunie Building), from 9 A. M. to 12 M., 1 to 5 and 6 to 8 P. M. Residence, State House Hotel. I will personally answer all postal summons. All correspondence desiring an answer should inclose a postage stamp and address.

☞ MARKED AT 50 CENTS! ☜

IN ALL SIZES.

And let us say that our aim during this season will be as it always has been, as we have secured these columns for the purpose of giving the people an idea of our business, the class of goods we keep, and the price asked, which will be marked on every article in plain figures, and not under any circumstance advertise what we have not got in stock, or advertise at a price that we will not sell the same for. It will be to the public's advantage to well read our remarks, which will appear new every other day. As we are rapidly making EXTENSIVE IMPROVEMENTS, it stands to reason that we are compelled to sell goods much under the regular price during these changes. With our NEW IMPROVEMENTS, we shall want new goods, which are being purchased now and arriving daily. THE PRICE IS BEING MARKED VERY LOW ON THEM, and if the public consult their interests, they will not hesitate in even buying some of our goods, if they do not have use for them for some time to come.

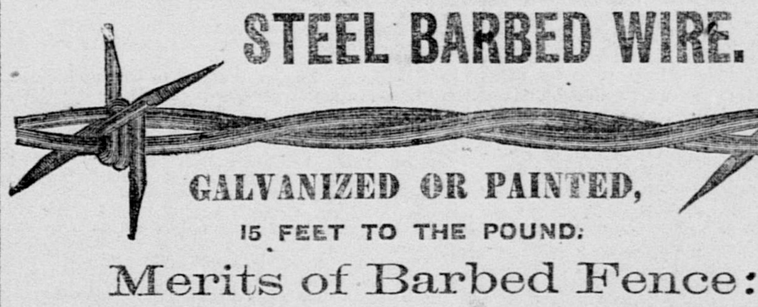
STEEL BARBED WIRE.



GALVANIZED OR PAINTED,

15 FEET TO THE POUND.

Merits of Barbed Fence:

It is the cheapest fence made; the most durable; it is not affected by fire, wind or flood; does not cause snow-drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept from it; requires but little labor to put it up; you can draw enough at one load to fence a farm; you can fence a good-sized farm in a day; it is the greatest practical invention of the age; and has come to be the farm and railroad fence of the country.

We advise every one who wishes to purchase wire, and wants the best, to buy the CACTUS BARB, as it contains all the favorable features that are required, and none of the objectionable ones. It is made only from the best annealed steel, fully warranted, either galvanized or painted; put up in spools of from 100 to 120 pounds each. Remember, it will not exceed 17 ounces per rod.

NOTICE OF INSOLVENCY.

STATE OF CALIFORNIA, COUNTY OF SACRAMENTO. In the Superior Court, in the matter of L. J. DIERSSEN, an insolvent debtor—L. J. DIERSSEN having by this Court, on January 3, 1883, been adjudged an insolvent debtor, upon the petition of Ludwig Mebius and P. C. Drescher, partners under the firm name of Mebius & Co., and other creditors, it is ordered that A. H. Estell, Sheriff of this county, take possession of all the estate, real and personal, of the debtor, except such as may be by law exempt from execution, and all his deeds, vouchers, books of account and papers, and keep the same safely until the appointment of an assignee; it is further ordered that said insolvent be, and he is hereby, forbidden to transfer any of his property, and all persons are forbidden to pay any debts, or transfer or deliver any property belonging to such insolvent to him, or for his use; it is further ordered that the creditors of said insolvent be and appear before this Court, in Department Number One, in the Court-house in the city of Sacramento, on MONDAY, April 2, 1883, at 10 o'clock A. M. of that day, to prove their debts, and choose one or more assignees of the estate of insolvent.

It is further ordered that the order be published in the SACRAMENTO DAILY RECORD-UNION, a newspaper of general circulation, published in the city of Sacramento, as often as the said paper is published before the said day set for the meeting of creditors.

Dated February 27, 1883.

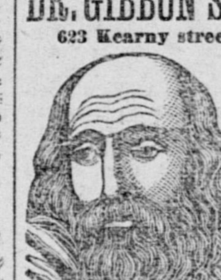
TO THE UNFORTUNATE!

DR. GIBBON'S DISPENSARY,

623 Kearny street, San Francisco.



Established in 1854, for the treatment of Sexual and Seminal diseases, such as Gonorrhea, Gleet, Strictures, Syphilis in all its forms, Seminal Weakness, Impotency, Skin Diseases, etc., permanently cured or no charge.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent by insanity.

CURED AT HOME.

Persons at a distance may be cured at home by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing ten dollars in registered letter, through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. Please say you saw this advertisement in the RECORD-UNION. Address, DR. J. F. GIBBON,

ja24-4ptf&sw Box 1957, San Francisco.

DR. SPINNEY & CO.,

OF NO. 11 KEARNY ST. SAN FRANCISCO,

Treat all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or Private Disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sunday, from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5. Call or address

DR. SPINNEY & CO.,

No. 11 Kearny street, San Francisco.

P. S.—For private diseases of short standing, a full course of medicine, sufficient for a cure, with all instructions, will be sent to any address for $10.
